CZECH HEALTHCARE SOLUTIONS: Concept of Modern Delivery Room

Modern delivery room is to be prepared for all situations that may be faced by the surgeons and nurses during standard and complicated deliveries. Due to that it includes delivery bed with baby crib, infant/transport incubator, infant radiant warmer, electrocoagulator and suspended bed head unit with necessary plugs for monitoring.

Birthing bed AVE 2

- + Perfectly suitable for all delivery phases
- + Women in labour can freely choose their birthing position

Infant radiant warmer Natally

- + Safe and comfortable environment for newborn children
- + For delivery rooms and subsequent intensive care

Newborn bed MiMi

- + Easy adjustment of the height and inclination of the cot
- + Moving the cot thanks to integrated wheels with brake

- + The bath is made of transparent plastic, the baby is always in sight

Set of suspended bed head unit + accessories

- + Can be fitted with halogen or LED spot lamp, bracket arms, telescopic rod with curtain, medical rail, positional light etc.

- + Designed to provide medical gas, electric power and data distribution as close as possible to the bedside area

Transport incubator TI-401

- + Resists the strains of transportation and absorbs shock
- + Safety belts and a special anti-stress mattress guarantee the child's safety and comfort

Electrocoagulator SMT BM M 400 PF

- + Easy to operate and reliable 400W electrosurgical device with compact and ergonomic (infection control) design
- + Efficient solution for birth complications

PROFIL Hospital Furnishing

- + Maximal functionality, mechanical, chemical and waterproof resistance and easy care
- + Hygienic and health safety for every piece of our furniture
